We are proud to have amongst us our own Alumni " Mr Bhushan Karpe"

He is the founder and COO at Wisor Nasik. And is pursuing his MBA in Operations Management from Symbiosis Nashik.

- He worked in projects Addressing network congestion and bandwidth slicing by utilizing software-defined networking approach
- Also Implemented the WISOR project for a startup, overlooked procurement, vendor management and negotiations, last mile delivery, end-user support, and customer satisfaction, ensured seamless integration and exceptional service delivery
- He Represented institute at Avishkar 2022, advanced from district to state levels
- He has designed and implemented a Human Activity Detection System using CNN (Convolutional Neural Networks) and LSTM
- Also worked for a project (Long Short-Term Memory) for video classification, achieved 91% accuracy in recognizing human actions
- Hes working on Applications in enhanced production monitoring, quality control, and quality assurance through technological innovation and data-driven decision-making, real-time data processing for improved operational efficiency and accuracy

Previously he has worked as summer intern in Compact gyan . He also did couple of more internship like

- Spearheaded the Prefab Team, coordinated cross-functional teams to streamline 3D asset integration
- Developed an automated script that reduced the setup time for 3D models from Blender to Unity3D, which boosted prefab creation speed by reducing manual process time and increased workflow efficiency by 80%

Parallely as a student he has completed many certifications like

- Udemv - SQL- The Complete Introduction to SQL programming 2024
- Coursera - Procurement Basics by Rutgers, The State University of New Jersey 2024
- Coursera - Inventory Management by University of California, Irvine 2024
- Coursera - Operations Management: Organization and Analysis by University of Illinois 2024
- Coursera – Supply Chain Logistics by Rutgers, The State University of New Jersey
- Coursera – Crash Course on Python by Google
- Google - Completed the Google Cloud Engineering Track and the Data Science & Machine Learning Track and earned 20+ badges in Google's 30 Days of Cloud

Additional achievements

- He administered social media accounts and orchestrated event coordination as the Social Media Head, enhancing management, leadership, and decision-making skills
- He was Shortlisted for Shark Tank Season 3 auditions, showcased innovation and commercial viability with WISOR
- Had won First prize in "In the Shoes of an Investor" at E-Summit '22 Hyderabad, demonstrating judgment, pressure management, and critical thinking
- Reached grand finals in Toycathon 21, developed a game in Unreal Engine on Indian civilization and history
 - Winner of Apex 2020 Business Model Competition, presenting an innovative, commercially viable business plan at Sandip University
 - Also Developed a self-driving car using reinforcement learning in a simulated environment
