Details:-

The Department of Computer Engineering of Gokhale Education Society's R.H. Sapat College of Engineering Management Studies and Research are organizing “**Career in SAP**” on 11 Sept 2024.

It was Seminar on SAP. The presentations given by the Ms. Ruchi Mulatkar Associate Director at Initium Learning. She explained from Beginners to Job Ready information in detail.

They presented the entire structure of SAP. Traditional business models often decentralise data management, with each business function storing its own operational data in a separate database. SAP software provides multiple business functions with a single view of the truth. This helps companies better manage complex business processes by giving employees of different departments easy access to real-time insights across the enterprise. As a result, businesses can accelerate workflows, improve operational efficiency, raise productivity, enhance customer experiences – and ultimately increase profits.

The event was coordinated by Ms. R. D. Narwade and Ms. T.S. Atre
